DETAILED ACTION

Election/Restrictions

Restriction to one of the following is required under 35 U.S.C. 121:

- I. Claims 1-48, drawn to a kit for organizing images provided on hard copy prints, classified in class 355, subclass 40.
- II. Claims 49-50, drawn to a method for ordering of a kit for use in organizing images to be scanned, classified in class 705, subclass 1.

Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the process as claimed can be practiced with other and materially different apparatus, such as any form of kit.

So as these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, and because these inventions have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication should be directed to Igor Borissov at telephone number (703) 305-4649.
